Holes For
Motor Mount
Plate

Step 1. The plate mounting brackets come preassembled as shown in Figure 1.

Step 2. Attach the motor mount plate (See Figure 2) by inserting (4) 3/8" x 1" bolts and nuts into the two middle holes onto the top bracket and the two holes on the bottom bracket and use washers on each side (See Figure1).

Step 3. Using two people, lift the Manaras motor and attach it to the motor mounting plate using (4) 3/8" x 1" bolts and nuts and use washers on both sides (See Figure 2 & 3).
